INTRODUCTION

Mr. Platt joined Forex Development Corporation in May 2016. Brian has over ten years' experience in the FX industry managing complex technology and business operations. His expertise includes advanced technical knowledge of databases, programming, and product development lifecycles as well as a clear understanding of business needs.

Mr. Platt's passion is combining this business and technical knowhow to assure the best products, client satisfaction, and optimization of human resources.

Mr. Platt holds a degree in Information Systems from Yeshiva University. He has computer science training from New York University and Oracle DBA training from Farleigh Dickenson University.

BIO SUMMARY

Mr. Platt joined the Company in May 2016 with over fifteen years of experience in the online brokerage industry. He continues to perform his duties as the CTO of the Company. Mr. Platt was the head of technology at MMI Advisors LLC from June 2014 to January 2016. He was instrumental in starting a forex broker from the ground up, introducing the trading platform, connecting liquidity, add-on services such as money management PAMM systems, and compliance reporting.

From May 2011- February 2014 Mr. Platt served as the Director of Risk Management and Operations Research at Boston Technologies. His major accomplishments include developing advanced procedures to eliminate trade risk, streamlining accounting operations, revamping client reporting, integrating new revenue streams, and providing comprehensive analytics.

Before joining Boston Technologies, Mr. Platt managed the Operations Research department at CMS Forex from March 2006 through May 2011. In this role, he coordinated all business intelligence efforts, identified and automated manual operations, and facilitated new business initiatives. Mr. Platt organized the operational elements of the sale of CMS Forex to Gain Capital, and subsequently revamped the company to utilize existing resources as a profitable self-sufficient IB business.
